

The company RUD Ketten Rieger & Dietz GmbH u. Co. KG was founded by Carl Rieger and Friedrich Dietz in Aalen, Southern Germany, in 1875. Today, it has a workforce of more than 1,700 employees in 120 countries and achieves annual revenues of over 200 million Euros. The family-run company continues to manufacture integrated chain and component solutions, non-skid chains, hoist chains, conveyor systems, drive technology and tool handling equipment at its sites in countries including Germany, Australia, Brazil, China, India, Romania, and the USA. The long-established German company also manufactures tyre protection chains and interior and exterior fixtures and fittings, under the brand name Erlau.

## RUD HOIST CHAINS: THE PERFECT SOLUTION

## PROVEN PRODUCTS FOR RENTAL AND RETAIL

### SAFE AND RELIABLE LIFTING AND LOWERING WITH RUD HOIST CHAINS

Whether onshore or offshore RUD hoist chains are the perfect partner for maintaining and repairing any hoist. RUD hoist chains are known for the highest possible performance. Tests and inspections go far beyond the required standards. Lowest tolerances and high-quality surfaces are our mission. Therefore, RUD hoist chains have the reputation of being a robust and reliable partner in withstanding external influences or weather. Trust in RUD hoist chains, just like the leading OEMs. These chains are perfectly adjusted to each application.

## WHAT MAKES THE DIFFERENCE?

### UNIQUELY TRACEABLE FROM THE CUSTOMER TO THE STEEL MILL

Thanks to the RUD test certificate and the clearly identifiable stamping, RUD hoist chains guarantee 100% traceability. In addition to the chain type and quality, the production number (e.g., D24) and batch number (e.g., 002) are stamped on each chain. These numbers form the clearly identifiable manufacturing number printed on the test certificate. With these numbers we guarantee the clear allocation of the inspections and tests at RUD. Thus, we create a further security feature.
